DOUGLAS MAC LEOD
1967-1984

doug . . . a witty sense of humor . . . a special sense of being . . . an adored son . . . a special brother . . . a real friend to those who knew him best . . .

We, the Class of 1985, dedicate our yearbook to our friend and classmate Douglas MacLeod.

For those of us with whom he worked and played he was our good friend; when we think of him we remember well:

--- his gentleness in spirit and in action . . .
--- his dry sense of humor . . .
--- his reliability and always being there for a friend . . .
--- his carefully chosen words, saying just the right thing to friends . . .
--- his ability to listen attentively to others with respect and concern for them . . .
and most of all
--- his appreciation of and respect for others.

We, his classmates and friends, are pleased he was our friend and classmate and are proud to dedicate our yearbook, ECHO 1985, to Doug.

THE WAY WE WERE . . .

The Science Club helps students to become aware of the careers in science and to experience out of class enrichment in science. This year the club members have looked at computer uses in science through hands on activities with the science department computers. Other enrichment involved lectures by working scientists and participation in day-long science seminars for high school students held at the Museum of Science and Suffolk University.

DEBATING TEAM

Left to right: Debra Malver, Jody Dunn, Elliott Dunn, James Whitman, Thomas Zikas, Jason Jones, Advisor Mr. Rice.

The Debating Club consists of almost a dozen students from our high school who meet on Thursdays to practice their speeches. The topic this year is whether the federal government should provide employment for all those who are out of work but who would be able to work. Our club has visited one school so far, for the purpose of observing; we hope to participate in an actual debate before the year's end.

MATH TEAM

The Canton High School Math Team is enjoying another successful season. The team is looking forward to its tenth consecutive year of capturing titles in both the Greater Boston Math League and the Massachusetts Math League. If the team wins the Massachusetts State and the New England tournaments, it will be the only team to ever have won these tournaments for four consecutive years. Again this year, the Canton High School Math Team has the greatest number of finalists in the State Olympiad. The Canton High School Math Team and its advisor, Mr. Martin Badoian, are to be commended for their strong dedication and consistent successes.

Published six times a year, *The Mercury* is Canton High's student organized and run newspaper. Its purpose is not only to inform the student population of issues concerning them but also to entertain and to encourage further thought on a variety of topics. In 1984, the New England Scholastic Press Association cited *The Mercury* for Superior Achievement in Scholastic Editing and Publishing.

The Mercury is the sponsor of the highly successful Valentine's Day Carnation Sale, an event enjoyed by many Canton High students. *The Mercury* also publishes the Senior Last Will and Testament each May.

The Mercury offers an outlet for many students talents: writing, drawing, photography. With an excellent editorial board, *The Mercury* is indeed the messenger to the C.H.S. student.

The language clubs have once again had a year with many diversified and interesting activities. The Spanish, German and French Clubs have brought to Canton High students a chance to explore the life and culture of foreign countries through speakers, food festivals, and visitors from other countries.

The year 1985 marks the thirteenth year of the student exchange with the lycee of LaBaule, France and the seventh year with St. Georgs Gymnasium in Bocholt. With the help of the language clubs, students from Canton have had the opportunity to visit France and Germany and to host students from these countries. Each year the programs increase in popularity and generate enthusiasm for all the students in Canton. Most important is the strong bonds of lasting friendship that continue to be formed between the communities of Canton, LaBaule, and Bocholt.

Now that you have completed your high school education, unlimited possibilities for interesting careers await you.

With your high school diploma, you can afford to be selective in your choices of a career.

We would be pleased to discuss with you at any time opportunities available, both in our office and distribution center, as well as retailing in the hundreds of shoe departments we operate coast to coast.

Whatever your career decision, we extend to you our best wishes for your success.

No matter what kind of life you lead, you'll lead it better at the 57.

Whether you're looking for an unforgettable meal, auspiciously complemented by a superb wine. Or your favorite cocktail mixed to perfection in our contemporary piano bar. Or simply a good night's rest in one of our spacious hotel rooms, complete with color TV.

You'll find it at the 57. Because, as anyone who's been there will readily attest, the 57 is more than a place where you can go to bring your day to a proper conclusion.

The truth is, life begins at 57.
